PROFESSIONAL SUMMARY

Software Engineer specializing in full-stack web development with hands-on industry experience building scalable web applications. Skilled in developing RESTful APIs, database management, and responsive user interfaces using modern JavaScript technologies. Strong foundation in data structures, algorithms, and software engineering principles, with a commitment to writing clean, maintainable, and efficient code.

EXPERIENCE

Software Engineer – Full Stack Developer, DIKITE Pvt Ltd — Oct 2025 - Present

- Developed and maintained full-stack web applications using **React.js**, **Next.js**, **Node.js**, **Express.js**, **MongoDB**, and **PostgreSQL**.
- Designed and implemented secure **RESTful APIs**, authentication, and responsive user interfaces for scalable web applications.
- Developed Phase 1 of **SemiconMart**, a B2B semiconductor platform using **Next.js**, **Tailwind CSS**, and **Framer Motion**.
- Contributed to the development of a real-time healthcare monitoring platform with live dashboards, ECG visualization, and backend services using **Next.js**, **Node.js**, **PostgreSQL**, and **WebSockets**.
- Developed Android applications using **Kotlin** and integrated wearable medical device data with backend services.
- Collaborated using **Git**, **GitHub**, and participated in application deployment using **Vercel** and **Render**.

INTERNSHIP

Web Development Intern | AcmeGrade (Certificate) — Jul 2022 – Sep 2022

- Developed and enhanced e-commerce website features using **HTML**, **CSS**, **JavaScript**, and **PHP**.
- Implemented product catalog, shopping cart, and payment integration modules.

PROJECTS

Real-Time Wearable Health Monitoring Platform — Dec 2025 – Present

- Developed a real-time healthcare platform using **React**, **Next.js**, **Node.js**, **TypeScript**, **Prisma**, **PostgreSQL**, and **WebSockets**.
- Built live patient monitoring dashboards, RESTful APIs, ECG and telemetry visualizations, wearable device integration, and Android support using **Kotlin**.

SemiconMart – B2B Semiconductor Platform — Jun 2026 – Present

- Developed the **Phase 1** frontend of a B2B semiconductor platform using **Next.js**, **Tailwind CSS**, and **Framer Motion**.
- Built responsive UI components, interactive animations, and reusable layouts to deliver a modern and user-friendly experience.

Itonus – MERN Stack Web Application — Oct 2025 – Nov 2025

- Developed a full-stack web application using **MongoDB**, **Express.js**, **React.js**, and **Node.js**.
- Implemented secure authentication, role-based authorization, **RESTful APIs**, and responsive user interfaces.

Diabetic Retinopathy Detection Using Deep Learning — Jul 2023 – Apr 2024

- Developed a deep learning model using **ResNet** and **U-Net** for automated diabetic retinopathy detection and severity grading.
- Improved retinal disease assessment by automating image quality evaluation, lesion detection, and severity classification.

EDUCATION

National Institute of Technology Puducherry (NITPY) — Dec 2020 – Apr 2024

Bachelor of Technology (B.Tech) – Computer Science and Engineering
CGPA: **6.75/10**

PUBLICATIONS

Diabetic Retinopathy Detection Using Deep Learning — Dec 2023 – Jul 2024

IEEE Certificate

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Framer Motion
Backend: Node.js, Express.js, RESTful APIs, WebSockets, Prisma ORM
Database: PostgreSQL, MongoDB, SQL
Mobile: Android (Kotlin)
Programming: C++, C, Python
Tools & Platforms: Git, GitHub, Docker, Postman, Firebase, Vercel, Render, Hostinger
Soft Skills: Communication, Teamwork, Leadership, Time Management

CERTIFICATIONS

Data Science Foundations | Great Learning **Certificate**
Web Development | AcmeGrade **Certificate**
